- Height: 135 mm
- Width: 49 mm

## Bulb characteristics

- Shape: Stick
- Cap/fitting: E27
- Voltage: 220-240 V
- Dimmable: No

# Highlights

## Energy efficient

All Philips energy savers save energy from the moment you turn the switch. During their lifetime they use fewer kWh and thus also result in a lower energy bill. The level of energy saving differs per lamp type and technology.

## Carbon footprint

Energy savers reduce the amount of energy in your home, which not only results in a lower energy bill, but also in less carbon (CO<sub>2</sub>) output by your energy supplier. Together we make this a better world to live in.

## Compact size and high perform

Our smallest energy saving lamps are just as small as a traditional light bulb. You can now save energy and money in all your lights and lamps, without compromising on light quality.

## Reliable quality

Philips keeps its promises about lamp performance. You can trust what the Philips packaging is saying about light output, lifetime and wattage equivalent to incandescent lamps.
